Dear Ms. Mentjes:

I sincerely appreciate you taking the time to speak at the August NAWBO Phoenix luncheon, and offering your insight at our NAWBO University program on Wednesday, August 13, 2008. In your presentation, "Selling with Intention", our members gained crucial knowledge about how to set professional goals and then meet and exceed those targets.

I was inspired by your enthusiasm and authenticity. Your innovative approach to positive visualization helped us achieve the mindset to succeed as women business owners. Thanks to your approachable demeanor and the personal anecdotes about your experience as an entrepreneur, the material was relatable and pertinent, as well as incredibly engaging.

Thanks again, for sharing your expertise with us!

Sincerely,

Robin Orchard
