

Ursula Mentjes is the Real Deal!

We had the pleasure and honor of having Ursula speak to the members and guests of our Holistic Chamber of Commerce Orange County Chapter meeting in April, and we were *not* disappointed.

Speaking on the topic of Selling with Synchronicity and Intention, Ursula has tapped into one of the universal principles that gives mankind the power to generate and create from our deepest desires, intentions, focusing, and beliefs. The attendees were silently glued to their seats, pulled in to her energy, story, and focus, as she shared the secrets of how she has used this principle to create increasing success from a young age, and how she has made it her goal to share the information, so that others may do the same.

Despite our audio visual equipment mysteriously going on “the blink,” Ursula did not blink, and smoothly went with the flow, spoke from her heart, and used her gifts of passion, confidence, experience, and intention to pass on the vital information for all of us to use. She was professional, authentic, respectful of her talk time, and of the highest integrity.

Synchronicity. It is not magic; it is not hocus pocus; it is real. And Ursula has opened herself up to use it not only in her work, but as a way of life, and as a channel for us. We’ve been experiencing a shift in the way we do things, the way we think, and what our expectations are. If your organization, business, or group is ready to shift, to blow the ceiling off of your previously thought limitations, you will want Ursula Mentjes to show you the way...she is the Real Deal!
