

Testimonial for Ursula Mentjes -

I had the pleasure of attending a workshop presented by Speaker Ursula Mentjes at our WinDS Annual National Conference. We were so impressed with her presentation we invited her to speak again at the Women in Diversified Services National Conference March, 2012 and March 2013, and I requested she be a guest on our upcoming radio show and speak for the NAREB Regional Meeting.

Ursula Mentjes kept the audience riveted with her relatable presentation, and our attendees received so much fabulous information that they were buzzing throughout the conference and long after about how valuable her information was, and how it helped advance their businesses. I highly recommend Ursula Mentjes if you need a phenomenal speaker. Her topics are timely and important to keep and grow your business contacts. She engages the audience with practical brilliance, wit and heart, and has them wanting to come back for more information.
